Too whom it may Concern

This is to acknowledge that Rimac Installations, who's principal is Ian Charman has been a preferred installer for Spacerack for more than 20 years.

As the Managing Director and owner of Spacerack Australia, I have personally known Ian for the past 6 years and during this time I have for Ian and his company to be extremely knowledgably with not only our product but also other Pallet Racking Products.

Rimac Installations is our first choice for all of our installations either small or large; in 6 years he has not let me down and I have never received a complaint from an end user.

Ian is so knowledgeable that I have on many occasions discussed possible solutions to difficult Installations even if he is not doing the install.

Generally I would be reluctant to refer third party organisations however, Rimac is the exception. I would be pleased to answer any further questions on his behalf, and can be contacted on 07) 3809 6200 or 0417 144 919.

Kindest Regards

Vince Camera  
Managing Director
